Academic Integrity, Similarity Assessment, and Responsible Use of Artificial Intelligence (AI)

*** All submitted abstracts and extended abstracts must adhere to the highest standards of academic integrity. Plagiarism, including self-plagiarism, is strictly prohibited. Authors are expected to submit original work and ensure that all sources are appropriately acknowledged.**

*** All submitted documents will be screened using Drillbit Similarity Detection and AI Detection tools before review and publication decisions.**

*** The use of Artificial Intelligence (AI) tools in the preparation of manuscripts is permitted only in accordance with the University of Colombo's "Policy on the Use of Generative Artificial Intelligence in Academic and Administrative Activities" (Annex I). Authors remain fully responsible for the accuracy, originality, integrity, and ethical compliance of all submitted content, irrespective of whether AI tools have been utilised.**

*** The acceptable similarity threshold for abstracts is 5%, while the acceptable similarity threshold for extended abstracts is 15 %.**

*** Similarity reports will be evaluated after excluding: Reference lists; In-text citations (citation elements only, not the associated text); and Matched text segments consisting of eight (8) words or fewer.**

*** All identified similarities must be appropriately attributed and cited. Whether similarities arise from direct quotations, paraphrased content, adopted ideas, or previously published scholarly work, proper citation and acknowledgement are mandatory. Commonly used technical terms, standard methodological descriptions, and widely accepted academic expressions may not require citation where appropriate.**

*** Submissions exceeding the prescribed similarity thresholds, containing uncited material, or violating the University's academic integrity requirements may be rejected without further notification.**
