7. After being successful at the MD (Radiology) Part II examination that will be held in December 2018, the trainees will be eligible to select subspecialty training in Paediatric Radiology, Neuroradiology and Interventional Radiology according to the merit position of all the successful candidates (Both New syllabus and Old syllabus) and other selection criteria laid down in Paediatric Radiology, Neuroradiology and Interventional Radiology subspecialty prospectuses.

7.1 One training slot will be available for Paediatric Radiology, one training slot will be available for Neuroradiology and one training slots will be available for Interventional Radiology this year, subjected to the approval of the Ministry of Health. This training will lead to Board Certification with MD in Paediatric Radiology, MD in Neuroradiology and MD in Interventional Radiology. Once selected the trainee will not be able to revert to General Radiology unless for medical reasons.

8. Candidates who are eligible to sit the MD Part II examination are required to be present for the first scheduled examination after completion of the training programme. If a candidate does not apply or does not sit the first scheduled examination, or subsequent scheduled examinations for reasons not acceptable to the Board of Study, the examination will be counted as an attempt.

9. Please note that **candidates are allowed only to sit for 6 attempts at the MD(Radiology) Part II Examination which must be made within a period of 8 years from the date of first examination.** This requirement will not apply to those candidates who have sat the MD (Radiology) Part I examination before 1998. However, after failing the fifth attempt the candidate should undergo a minimum period of one year further training before permitted to sit for the sixth attempt.

10. The allocation of post MD training units will be done as described in “General Regulations and Guidelines -2018” and according to the approved procedure by the PGIM based on merit. The allocated training units shall not be changed for personal reasons.

11. The candidates should commence the overseas training within five years after passing the MD Examination and if not the date of Board Certification will be delayed.

12. There should be no delay in submitting the dissertation or research report within the stipulated period as prescribed in the prospectus. If there is a delay, the Board Certification will be delayed accordingly.

13. The minimum duration of post MD training required to be eligible for Board Certification in General Radiology shall be one year local and one year overseas. However, the duration may be more than two years in certain specialties and the information is available in the prospectus.

14. The candidates who shall commence the post MD (Senior Registrar) training after 1st August 2011 should pass the pre-Board Certification Assessment as per PGIM regulations, to be eligible for Board Certification. The details are available at the PGIM for perusal.

15. Following the completion of prescribed requirements for Board Certification including overseas training the prospective trainee applies for Board Certification with the relevant documents within one month following the completion of such requirements. If this is not followed, the date of Board Certification will be delayed.
