

## **Request to introduce Trauma and MSK Imaging for 2<sup>nd</sup> year trainees in MD Radiology**

As recommended by the Board of Management, the Senate approved to introduce Trauma and MSK Imaging for 2<sup>nd</sup> year trainees in the Pre MD training programme in Radiology. The Senate also approved that the trainees should be jointly supervised by a Radiologist and Orthopaedic Surgeon for a duration of 04 weeks for this purpose. The Senate also noted that the MD Radiology Prospectus has to be amended, and the introduction of Trauma and MSK imaging would be applicable to trainees who sit the Selection Examination in Radiology after this decision is approved by the Senate.

*BOM approved – 07.12.2019*

*Senate approved – 30.12.2019*
